ARRIVE Standard Limited Hardware Warranty, Disclaimer of Warranty, and US FCC Notice for ARRIVE branded peripherals

■ Standard Limited Hardware Warranty (SLHW)

Hardware Peripheral Product. The warranties provided by Arrive Systems, Inc. or its subsidiary ("ARRIVE") selling the "Hardware Peripheral Product". The term "Hardware Peripheral Product" means an ARRIVE branded hardware peripheral that is an electronic, electromechanical or mechanical device with a specific function and none or limited configuration ability ("Hardware Peripheral Product" "Hardware" "Peripheral"). Arrive warrants that the Arrive Hardware Peripheral Products that you have purchased or leased from Arrive or its authorized channel partners or solution providers are free from defects in materials or workmanship under normal use during the Limited Warranty Period of one (1) year from the date of purchase from Arrive excluding the following parts and sub-assemblies: (i) Touchscreen Plasma, LCD and LED displays, screens and overlay components are covered for ninety (90) days from the date of purchase (ii) Consumables such as batteries and lamps are not covered; these exclusions are specified in Part I Section 1b of the SLHW-P 0101-15. The Limited Warranty Period starts on the date of purchase or lease from Arrive. Your dated sales or delivery receipt, showing the date of purchase or lease of the product, is your proof of the purchase or lease date. You may be required to provide proof of purchase or lease as a condition of receiving warranty service. You are entitled to hardware warranty service according to the terms and conditions of this document if a repair to your Arrive Hardware Peripheral Product is required within the Limited Warranty Period. This limited warranty extends only to the original end user of the Product. During the Limited Warranty Period, Arrive will, at its discretion, repair or replace any defective component. All component parts or hardware products removed under this Limited Warranty become the property of Arrive. In the unlikely event that your Arrive Hardware Peripheral Product has recurring failures, Arrive, at its sole discretion, may elect to provide you with (a) a replacement unit of Arrive's choosing that is the same or equivalent to your Arrive Hardware Peripheral Product in performance or (b) to give you a refund of your purchase price or lease payments (less interest) instead of a replacement. This is your exclusive remedy for defective products.

The shipment of a replacement within the warranty period is according to the replacement process specified in Part I Section 4 described in SLHW-P 0101-15 which can also be found on the ARRIVE Product Warranties web page <http://carepoint.arrivesys.com/warranty>. ARRIVE's obligations hereunder are conditioned upon the return of affected Hardware in accordance with ARRIVE's Return Material Authorization (RMA) procedures specified in Part I Section 3 described in SLHW-P 0101-15.

ARRIVE is not responsible for damage that occurs as a result of your failure to follow the instructions intended for the ARRIVE Hardware Peripheral Product. The foregoing warranties and remedies shall be void as to any Hardware Peripheral Products damaged or rendered unserviceable by one or more of the following: (1) improper or inadequate maintenance by anyone other than ARRIVE or ARRIVE's authorized agents, (2) software or interfacing supplied by anyone other than ARRIVE, (3) modifications, alterations or additions to the Hardware Peripheral Products by personnel not certified by ARRIVE or ARRIVE's authorized agents to perform such acts, or other unauthorized repair, installation or opening or other causes beyond ARRIVE's control, (4) unreasonable refusal to agree with engineering change notice programs, (5) negligence by any person other than ARRIVE or ARRIVE's authorized agents, (6) misuse, abuse, accident, electrical irregularity, contamination, improper or inadequate maintenance or calibration or other external causes such as theft, vandalism, fire, water or other peril, (7) damage caused by containment and/or operation outside the environmental specifications for the Hardware Peripheral Products, (8) alteration or connection of the Hardware Peripheral Products to other systems, equipment or devices (other than those specifically approved by ARRIVE) without the prior approval of ARRIVE, or (9) any use that is inconsistent with the user manual or by operation outside the usage parameters stated in the user documentation that shipped with the product (including burned monitor screens and incorrect input voltage), (10) the serial number has been removed, damaged or rendered unreadable, (11) by software (if any), interfacing, parts or supplies not supplied by ARRIVE, (12) improper site preparation or maintenance, (13) virus infection (whenever applicable), (14) loss or damage in transit. The warranty period for a Hardware Peripheral Product is not extended if ARRIVE repairs or replaces a warranted product or any parts.
