

Arrive Media Bridge™

HDMI to USB Video Capture System

Model AHD-CAP-1010

The Arrive® Media Bridge is an HDMI to USB Video Capture System. It is compatible with all Arrive EdgelessMedia® processors which are not equipped with internal HD-CAP hardware. It provides immense flexibility in managing video capture needs from connected devices in meeting rooms, classrooms and conference rooms.

When used with compatible Arrive EdgelessMedia® hardware, the Arrive® Media Bridge is able to respond to the video management controls on Arrive ControlPoint™ consoles.

AHD-CAP-1010

Hardware Specifications

Max. Input Resolution	1920 x 1080p@60/50fps
Recording Mode	Hardware Compression, Real-Time Mode
Interface	USB 2.0 Compatible with USB 2.0/3.0 Host Controllers
Video Input	1 x HDMI
Optional Video Input	Composite and A/V Cable: 1 x Composite Video + 1 x S-Video A/V input Component A/V Cable: 1 x YPbPr A/V input VGA A/V Cable: 1 x VGA(D-Sub) A/V input
Supported Video Format	H.264 High Profile (Hardware Compression)
Supported Video Resolution	1920 x 1080p@60/50fps (Input:1080p60/50fps, Output: 1080p30/25fps) 1920 x 1080p@30/25/24fps 1920 x 1080i@60/50fps 1280 x 720p@60/50fps 1280 x 1024p@30fps 1024 x 768p@60fps 800 x 600p@60fps 640 x 480p@60fps 720 x 480p@60fps 720 x 576p@50fps 720 x 480i@60fps 720 x 576i@50fps
Audio Input	HDMI Embedded Audio Audio L/R (2 x RCA through optional A/V cable)
Audio Format	Stereo / 16-bit / 32000 ~ 48000Hz

System Requirement
