

**MANAGE SHARED WORKSPACES...
SOLVE SCHEDULING CHAOS EASILY.**

Arrive InfoPoint is an all-in-one room reservation, digital signage and resource management solution for all shared workspaces - from meeting to learning spaces. Do away with the hassles of double bookings, scheduling chaos and interrupted meetings, and ensure truly effective facility management. All space and booking information are visible on the touch screen including easy features to make announcements, show digital signage, leave notes, check reports/analytics, and even manage or control room devices. InfoPoint integrates seamlessly with MS Exchange, Office365, and Google Calendar app. It can work standalone, or as a centrally managed device with Arrive OnePoint 2.0 Server.

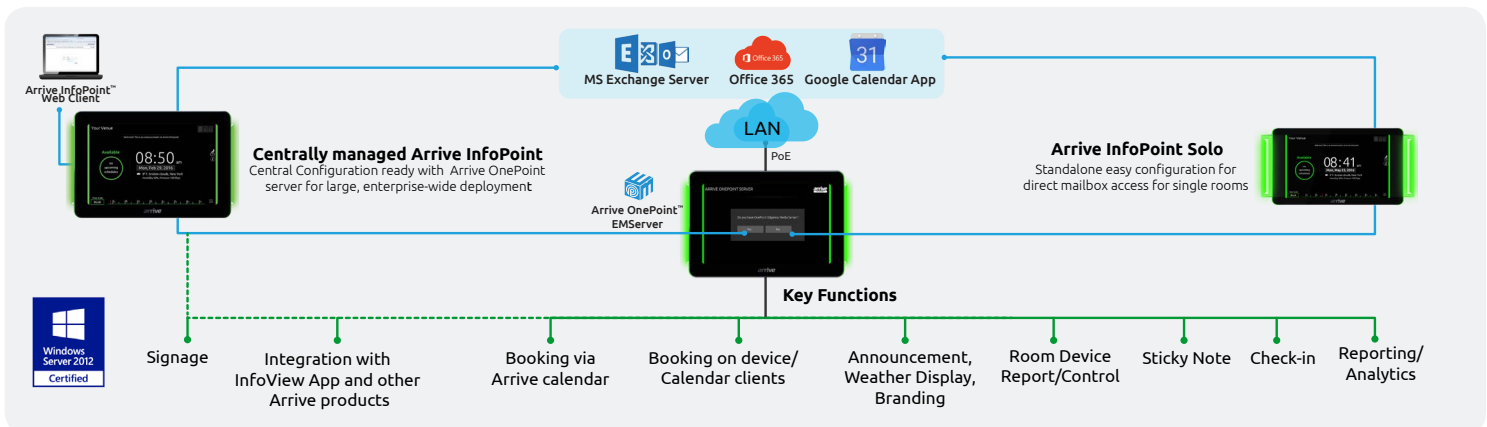

Key Features

- Schedule or book on device or via email/calendar app
- Make announcements
Use as digital signage
- Manage shared spaces; maximize use of resources
- View real-time data such as user and booking reports
